LaMarr Clannon
Maine NEMO
lclannon@maine.rr.com
207/771-9020

Registration available by
mid-October through
Maine JETCC
www.jetcc.org
207/253-8020

**Presenters from Geosyntec,
the University of New Hampshire
Stormwater Center, and more!**

Participants will:

- understand using LID as a design philosophy vs. retrofitting a site,
- be able to suggest LID for a new development and a retrofit site,
- compare costs for LID vs. conventional treatment,
- understand sizing of LID practices,
- recognize how climate change will affect LID/ stormwater issues,
- understand operation and maintenance of various LID techniques,
- understand new/upcoming chapter 500 LID requirements, and
- recognize when you're in over your head and need professional help!
